

What is the **Windham Economic Development Committees'** (WEDC) purpose in Town?

- The WEDC is appointed by the Windham Town Selectmen and exists to improve the quality of life in our community by promoting planned economic growth in the areas of interest to our residents. The WEDC advocates Windham as a destination for new business as well as support existing businesses in our Community.
- The WEDC's intention is to encourage community outreach & support through education & transparent communication of our agenda. We meet monthly and encourage community attendance & participation.
- The WEDC believes that planned efforts of economic growth will lead to a more balanced tax responsibility between residents and businesses which will lessen the burden of cost of community service to residential homeowners, enhance the vitality of our school system and strengthen Windham's cultural capital.

Stay tuned to meet the members of the WEDC who volunteer their service in upcoming WEDC communications....
